There are 362 plus a possible 26 more. SRC does not plan to have them to us until at least Oct 1 so I don't know how many are substantive.

By the way, we have no information on the new date/time for the SNUR meeting. I am not in the office and would need to call in.

Need a quick answer on the PF comments. That SNUR estimate is low. Thanks!

Subject: Quick question on asbestos comments

Nancy is asking how many comments on both the SNUR and the PF are “unique”, i.e., substantive. Jeff told her about 20 for the SNUR. Is that now accurate, and do we have a sense for the PF? Need an answer quickly . . .
